

SAHIL BHAYRE

 +91-9340122746  sahilbhayre93@gmail.com  linkedin.com/in/sahilbhayre  github.com/Sahilbhayre

Skills

Programming: Python, C++

Machine Learning: Regression, Classification, Model Evaluation, scikit-learn

Data Analysis: Pandas, NumPy, Matplotlib, Seaborn, EDA

Tools: SQL, Git, Streamlit, FastAPI, Jupyter Notebook

AI/ML Framework: PyTorch, TensorFlow and scikit-learn

Experience

AI/ML Intern

Feb 2026 – Mar 2026

Evoastra Ventures Pvt. Ltd.

- Worked on preprocessing and analyzing structured and unstructured datasets for machine learning applications.
- Developed and evaluated classification/regression models using Python and scikit-learn for real-world datasets.
- Performed model validation and performance analysis to improve prediction accuracy.
- Collaborated with team members on AI system integration and deployment workflows.

Projects

PreventAI: Diabetes Risk Prediction | Python, scikit-learn, Pandas, NumPy, Logistic Regression Model

Feb 2026

- Developed a Logistic Regression-based health prediction system using Python and scikit-learn.
- Built an end-to-end ML pipeline including preprocessing, feature selection, and prediction.
- Achieved 87% prediction accuracy on test dataset using Logistic Regression.
-  Github Repository

AI-Powered PDF Assistant | Python, Streamlit, LangChain, RAG

Nov 2025

- Built a RAG-based system using LangChain and FAISS for question-answering over PDFs.
- Implemented semantic search with embeddings and deployed using Streamlit.
-  Github Repository

AI-Powered Personal Meal Assistant | Python, FastAPI, REST APIs, HTTPX

Nov 2025

- Designed a multi-agent AI system with Planner, Worker, and Executor components.
- Developed REST APIs using FastAPI for inter-agent communication.
-  Github Repository

Certifications

- **Supervised Machine Learning: Regression and Classification** - Coursera(DeepLearning)
- **Python for Data Science** – IBM
- **Foundations in GenAI** – IBM
- **AI Agent Intensive Course** - Kaggle x Google
- **Pandas** - Kaggle

Education

B.Tech in Computer Science (AI/ML Specialization)

2024 - Expected 2028

University Institute of Engineering and Technology (UIET), MDU Rohtak
